How to find Reports and Maps – Your Guide to MP 77

INTRODUCTION

For the convenience of the user, this supplement to Miscellaneous Paper 77 consolidates in one volume information on some 940 maps and reports released or published by the Mineral Resources Group during the period 1981 to 1983. Hence, it supersedes the single supplements issued for 1981 and 1982. For general introductory remarks, the user is referred to Miscellaneous Paper 77, "Index to Published Reports and Maps, 1891 to 1977". The publications released during the period 1978 to 1980 are covered in the "1978-1980 Supplement".

Starting with the 1981 to 1983 supplement, the list of Open File Reports will be all inclusive. Also, for ease of reference, related final Reports are indicated where applicable. However, it should be noted that in the Author, District, NTS and Township cross-indexes in this supplement only the Open File Reports for the period 1981-1983 are referenced. For earlier years, see MP77 issue(s) covering the year(s) of interest.

Full titles of the reports and maps are given in the publication index section of the supplement. In subsequent sections, authors, districts, NTS units and townships are cross-referenced to relevant maps and reports by publication designator codes explained below:

OIL AND GAS PAPER SERIES IS THE CONTINUATION OF THE EARLIER PAPER SERIES (OIL AND GAS) PUBLISHED FROM 1967 TO 1979 BY THE AGENCIES RESPONSIBLE FOR ACTIVITIES ASSOCIATED WITH THE EXPLORATION, DRILLING AND PRODUCTION OF OIL AND GAS IN ONTARIO. THE LAST ISSUE OF THE PAPER SERIES WAS PAPER 78-1 PUBLISHED IN 1979.

OGP 001	OIL AND GAS EXPLORATION, DRILLING, AND PRODUCTION SUMMARY, 1978, BY P A PALONEN + R BOOTH-HORST, ONTARIO MINISTRY OF NATURAL RESOURCES OIL AND GAS PAPER 1, TORONTO 1981
OGP 002	OIL AND GAS EXPLORATION, DRILLING AND PRODUCTION SUMMARY, 1979, BY P A PALONEN, R BOOTH-HORST AND G TANTON, ONTARIO MINISTRY OF NATURAL RESOURCES OIL AND GAS PAPER 2, TORONTO 1981
OGP 003	OIL AND GAS EXPLORATION, DRILLING AND PRODUCTION SUMMARY 1980, COMPILED BY R BOOTH-HORST AND R RYBANSKY, ONTARIO MINISTRY OF NATURAL RESOURCES OIL AND GAS PAPER 3, TORONTO 1982
OGP 004	OIL AND GAS EXPLORATION, DRILLING, AND PRODUCTION SUMMARY, 1981, COMPILED BY R RYBANSKY AND R A TREVAIL, ONTARIO MINISTRY OF NATURAL RESOURCES OIL AND GAS PAPER 4, TORONTO 1983

PRIOR TO 1981,OCCASIONAL PAPERS + REPORTS WERE COMMONLY CATALOGUED UNDER NON-SERIAL PUBLICATIONS. IN 1981,THE OCCASIONAL PAPER PUBLICATION SERIES WAS INTRODUCED STARTING WITH OP 7.SOME OF THE EARLIER OCCASIONAL PAPERS + REPORTS WERE RETROACTIVELY ASSIGNED TO THIS NEW SERIES.FOR THE SAKE OF COMPLETENESS ALL PAPERS CURRENTLY INCLUDED IN THE OCCASIONAL PAPER SERIES ARE LISTED BELOW

OP 001	REPORT OF THE ROYAL ONTARIO NICKEL COMMISION WITH APPENDIX, ONTARIO MINISTRY OF NATURAL RESOURCES OCCASIONAL PAPER NO 1, TORONTO 1917
OP 002	THE ONTARIO METAL MINING INDUSTRY-PRESENT AND FUTURE, BY STAFF, ONTARIO MINISTRY OF NATURAL RESOURCES OCCASIONAL PAPER NO 2, TORONTO 1977

SERVICES PROVIDED BY THE GEOSCIENCE DATA CENTRE

In addition to this index another useful publication is the annual edition of Index to Exploration Reports, issued as Open File Report 5333.

Other services to the mining industry, geoscientists, prospectors, environmentalists and land use planners are provided by the Geoscience Data Centre. They include:

DATA DEPOSITORIES

- *EXPLORATION DATA*

Exploration reports and drillhole logs received from the mining industry since the late 1940's are available for examination.

- *MINERAL DEPOSIT DATA*

Over 7,000 metallic and industrial mineral files have been assembled and contain information on location, geology, mineralization, development work and references.

COMPUTER RETRIEVAL SERVICES

- *ONTARIO GEOSCIENCE INDEX DATABASE*

Custom-tailored retrievals can be made from this bibliographic file covering:

1. all geoscience reports and maps published by the Ministry since 1891. Over 6,500 items are included.
2. all exploration reports submitted by the industry, totalling over 8,500 items.

Report and map references can be retrieved by geoscience keywords, author/company name, geographic area, year and category of report/map.

- *MINERAL DEPOSIT INVENTORY RECORD DATABASE*

This database is used for access to data on 5,500 occurrences and deposits by deposit name, location, commodity and development status.

- *ROCK CHEMICAL DATABASE (PETROCH)*

Chemical data on some 9,600 rock samples collected by OGS geologists are retrievable by township, NTS quadrangle, broad rock category, and major oxides and trace elements.

- *GEOREF DATABASE*

This file, maintained by the American Geological Institute, covers the world geoscience literature including journal articles, meeting papers and theses. Retrieval services are extended to users without computer terminal facilities.

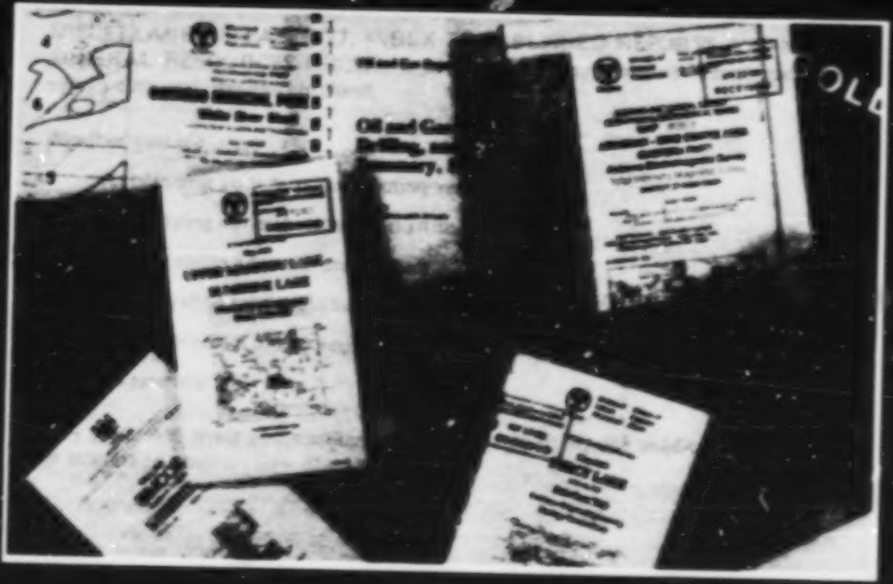
How to find Reports & Maps



Your Guide to MP77

Index to Published Reports and Maps
Mineral Resources Group

INTRODUCTION

MISCELLANEOUS PAPER 77: INDEX TO PUBLISHED REPORTS AND MAPS, MINERAL RESOURCES GROUP, is a quick and easy-to-use reference tool, designed with you, the user, in mind.

Whether you are

- planning your next prospecting venture
- studying mineral resources distribution
- addressing environmental issues
- evaluating land use alternatives or
- interested in the geology and minerals around your house, cottage or farm

MP 77 is essential to you!

This guide will show you step-by-step how to zero-in on our publications that are of interest to you.

WHAT IS MP 77 ?

MP 77 is an index that itemizes and cross references thousands of reports, maps and other types of publications that the Mineral Resources Group has published since 1891.

Without MP 77, your search for Ontario geoscience publications would not be as easy and simple.

WHAT SHOULD I KNOW ABOUT MP 77 ?

Each MP 77 is divided into two main parts

1) the **PUBLICATION INDEX**, catalogues all maps and reports released by the Mineral Resources Group. Maps and reports are grouped together by publication type for easier access.
2) the **AUTHOR**, territorial **DISTRICT**, **NATIONAL TOPOGRAPHIC SYSTEM** (**NTS**), and **TOWNSHIP INDEXES**, cross-referenced to publications.

MP 77 can be accessed by using any of the **AUTHOR**, **DISTRICT**, **NTS**, **TOWNSHIP** or **PUBLICATION** indexes. Depending on your needs, MP 77 can be used to identify publications that cover a large area of the province or to zero-in on a specific area. The choice is yours.

HOW MANY VOLUMES OF MP 77 ARE THERE ?

As of March 1983, MP 77 consists of 4 volumes which cover the publication years 1891 to 1977, 1978 to 1980, 1981, and 1982.

Each year a new supplement volume is added to the previous volumes. From time to time, volumes that cover a single publication year, e.g. 1981 and 1982, will be combined into one new volume, e.g. 1978-1980, for the user's convenience.

HOW DO I USE MP 77 ?

This guide is applicable to all volumes of MP 77, however, the examples used here are from MP 77, 1982 Supplement.

Step by step, the following examples will show you how to zero-in on specific publications.

NTS INDEX EXAMPLE

What, if anything, was published on the Hemlo area during 1982 ?

Step 1: See page 6 – Index to NTS Quadrangles.

Step 2: Locate the Hemlo area on the NTS grid of Ontario – 042C/12NW.

The figure on page 6 and its insets show you how to zero-in on any area.

Step 3: See page 7 which is a reproduction of page 37 of the NTS INDEX section in MP 77, 1982 Supplement. REPORT 0217 is identified as being within the NTS grid 042C/12NW.

Step 4: See page 8 for the full title of REPORT 0217.

Should you want to increase the area of search, then you would not zero-in on NTS grid 042C/12NW. Instead you would use NTS grids 042C/12, 042C, or 042 which cover increasingly larger areas.

Starting with MP 77, 1978-1980 Supplement, general publications on Ontario are listed under "ONTARIO" at the beginning of the NTS INDEX.

TOWNSHIP INDEX EXAMPLE

What, if anything, was published in 1982 on the Hemlo area which is located in Bomby Township?

Step 1: See page 9. Report 0217 is listed under **BOMBY**.

Step 2: For the full title of **REPORT 0217**, see page 8.

In those parts of northern Ontario where there are no geographic townships, access is only possible by the **NTS INDEX**.

AUTHOR INDEX EXAMPLE

In 1982, T.L. Muir published a report on the Hemlo area. What is the report number and title?

Step 1: See page 10. Listed under **MUIR, T.L.** there are one preliminary map (**P-02571 PRECAM**) and two reports (**REPORT 0217** and **REPORT 0218**).

Step 2: Turn to page 8 for the full titles of the two reports. **REPORT 0217** indicates that this is the report you are looking for.

DISTRICT INDEX

The steps in using the **DISTRICT INDEX** are similar to the **AUTHOR INDEX** example, except that you would use the **DISTRICT INDEX** in step 1. The territorial district boundaries are shown on the figure on page 6. The area south of Muskoka and Nipissing has been indexed under "Ontario Counties".

For the full meaning of publication designators used in the cross-indexes, see the introduction in MP 77. For your convenience, these designators are also tabulated on the next page.

Remember! Check all volumes of MP 77 to get a complete list of publications for the area in which you are interested. Information on publications released subsequently to the latest MP 77 volume can only be obtained from the monthly Mineral Resources Group, Publications Release Notice which may be obtained by writing to:

Geoscience Information Office
Ontario Geological Survey
Ministry of Natural Resources
8th floor, 77 Grenville Street
Toronto, Ontario M5S 1B3

SERVICES PROVIDED BY THE GEOSCIENCE DATA CENTRE

In addition to MP 77 another useful publication is the annual edition of Index to Exploration Reports, issued as Open File Report 5333.

Other services to the mining industry, geoscientists, prospectors, environmentalists, and land use planners are provided by the Geoscience Data Centre. They include:

DATA DEPOSITORIES

- *EXPLORATION DATA*

Exploration reports and drillhole logs received from the mining industry since the late 1940s are available for examination.

- *MINERAL DEPOSIT DATA*

Over 6,900 metallic and industrial mineral files have been assembled and contain information on location, geology, mineralization, development work and references.

COMPUTER RETRIEVAL SERVICES

- *ONTARIO GEOSCIENCE INDEX DATABASE*

Custom-tailored retrievals can be made from this bibliographic file covering:

1. all geoscience reports and maps published by the Ministry since 1891. Over 6,300 items are included.
2. all exploration reports submitted by the industry, totalling over 8,400 items.

References can be retrieved by geoscience keywords, author/company name, geographic area, year and category of report/map.

- *MINERAL DEPOSIT INVENTORY RECORD DATABASE*

This database is used for access to data on 5,400 occurrences and deposits by deposit name, location, commodity and development status.

- *GEOREF DATABASE*

This file, maintained by the American Geological Institute, covers the world geoscience literature including journal articles, meeting papers and theses. Retrieval services are extended to users without computer terminal facilities.
